Life Sciences Day 2022

LAWTANK

LT LAW TANK is pleased to be the linguistic partner of the Schulthess Forum Life Sciences Day 2022. LT LAW TANK has been providing legal linguistic services within complex procedures, e.g. multilingual contract drafting and translation (research, cooperation, licensing agreements, etc.), support in (medical) approval procedures and (remote/on-site) conference interpreting, for more than 20 years. With its translation, interpreting and transcription services, certification and legal research, contractual drafting, securing of evidence and other services, LT LAW TANK makes it easier for international customers to access different legal systems and helps them to overcome linguistic and legal barriers. These services are offered for over 40 languages and over 100 language combinations.

Since 2020, the proprietary neuronal machine translation system (NRMT) operated on the company's own servers in Switzerland has made it possible to translate confidential documents in the quality required by the client (with or without post-editing and certification) at attractive prices and at short notice in all combinations of German, French, English, Italian and Spanish.

Interpharma

Interpharma, the association of Switzerland's research-based pharmaceutical companies, was founded in 1933. Its 23 member companies together account for 90 percent of market share in patented medicines in Switzerland and invest 6.5 billion francs annually in research and development in the country. Interpharma is a driving force of an efficient, high-quality healthcare system that gives patients rapid access to innovative treatments and the best possible care. Both in Switzerland and abroad we are committed to ensuring that patients receive first-class healthcare, that innovations are rewarded and that our industry is able to make a key contribution to Switzerland's prosperity, growth and competitiveness.

Life Science Cluster Basel

The Life Sciences Cluster Basel of the Basel Chamber of Commerce shows the economic relevance of the local life sciences industry. It promotes the exchange of views between companies and organizations along the entire value chain as well as policy makers, the administration, and the population. It supports the life sciences companies to remain competitive and sets impulses to further develop the industry's above-average value creation potential in a targeted manner.

scienceindustries

scienceindustries, der Schweizer Wirtschaftsverband Chemie Pharma Life Sciences, setzt sich für international herausragende Rahmenbedingungen für seine rund 250 Mitgliedsunternehmen ein. In den Industrien Chemie Pharma Life Sciences sind in der Schweiz rund 74.000 Erwerbstätige beschäftigt. Als grösste Exportindustrie der Schweiz leistet sie einen bedeutenden Beitrag zum Schweizer Wohlstand. Die Schweizer Chemie Pharma Life Sciences rangiert bezüglich ihrer Wettbewerbsfähigkeit auf dem zweiten Platz nach den USA und gehört somit hinsichtlich Performance, Marktstellung, Innovationsfähigkeit und Technologieführerschaft zur absoluten Weltspitze.

vips

vips was founded in 1950 and, with 85 members, is the pharmaceutical association with the most members in Switzerland today. vips has a broad base and its membership structure shows a high level of diversification. This means that both companies selling highly innovative products and generics companies are represented. Numerous members have their production sites in Switzerland. vips sees itself as a hub that connects authorities, politics, media and members. It campaigns for supply security for all patients and for fair medication pricing.
